# FARM PRESENTATION

FARM PRESENTATION

Borgunto is a Tuscan company that deals with the distribution of Chianti wine, extra virgin olive oil and jams. We ship our products throughout Italy, rediscover the flavor of tradition and authenticity.

In the heart of the vineyards, where the sun caresses the vines and the wind whispers ancient secrets, a thousand-year-old art is revealed: wine tasting. It is a ritual that dances between the past and the present, a harmony of sensations that unfolds between wooden barrels and crystal glasses.

The first sip is a journey, a sensorial journey that embraces the taste with the same intensity with which the wind caresses the bunches. The sweet embrace of the blend, followed by the lively dance of acidity that awakens the palate. Then, the texture of the tannins, like the fabric of a compelling story that slowly reveals itself and envelops you completely.

All accompanied by the sublime flavor of our typical truffle and non-truffle products, a unique experience, out of the ordinary and which one would not expect to find in the historic center of a famous city, on the contrary, in the boundless countryside.
